

# BEYOND CHICKEN TENDERS<sup>®</sup>

Beyond Chicken Tenders are breaded to perfection for a crispy outside and irresistibly juicy, tender bite—the ideal appetizer, main dish or addition to salads, sandwiches and tacos. The ultimate go-to comfort food, now made from simple, plant-based ingredients.

You'll have to taste it to believe it: in consumer tests, Beyond Chicken Tenders scored comparably in overall flavor to animal-based chicken tenders. They also deliver 14 grams of protein per serving and 40% less saturated fat than the leading foodservice chicken tender. Like all Beyond Meat products, Beyond Chicken Tenders are made from simple, plant-based ingredients without GMOs, antibiotics, hormones or cholesterol.

Nearly a decade of innovation and research has gone into creating Beyond Chicken Tenders, which was awarded the prestigious 2021 Food and Beverage (FABI) Awards by the National Restaurant Association Show.

This summer, consumers can find Beyond Chicken Tenders on the menus in restaurants across the United States, including:
